DETAILED ACTION

Election/Restrictions

1. Claims 3 and 23 are generic to the following disclosed patentably distinct species:

Claims 4, 5, and 24, in which no protocol conversion is performed if the two terminals share the same protocol.

Claims 13 and 14, in which protocol conversion is performed only for the header part in a transmission if the two terminals share the same protocol.

The species are independent or distinct because they constitute different, mutually exclusive methods in a particular scenario.

2. Claims 1-3, 6-12, 15-23, and 25-28 are not subject to the Election Requirement and shall be examined in the next Office Action.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims

Art Unit: 2134

subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
